An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Okey on 2/9/05.

The application has been amended as follows:

In claim 1 , line 9, after "quantum well structure" add ---- , wherein the introduction of the ions creates point defects in the quantum well structure, wherein the thermal annealing moves point defects closer to the quantum well layer without introducing quantum well intermixing in the quantum well layer-----

Cancel claim 4

In claim 20, line 16 after "quantum well structure" add ----, wherein the introduction of the ions creates point defects in the quantum well structure, wherein the thermal annealing moves point defects closer to the quantum well layer without introducing quantum well intermixing in the quantum well layer-----

Cancel claim 23

The following is an examiner's statement of reasons for allowance: Prior art neither teach nor suggest, after introducing ions into quantum well structure, pre-annealing at second elevated temperature wherein the introduction of the ions creates point defects in the quantum well structure, wherein the thermal annealing moves point defects closer to the quantum well layer without introducing quantum well intermixing in the quantum well layer, which is in addition to thermal annealing the quantum well structure at a third elevated temperature , and for anneal time period , sufficient to introduce quantum well intermixing in, and shift of band gap energy of, the quantum well layer-----

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Savitri Mulpuri whose telephone number is 571-272-1677. The examiner can normally be reached on Mon-Fri from 8 a.m. to 4.30 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Lebentritt, can be reached on 571-272-1783. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
